# Chocolate<sup>#9</sup><sup>TM</sup>

No Bonk Energy Gel

## Why is Glycemic Index Important?

High glycemic index sweetener causes crash:

A test group consumed glucose, a high glycemic sweetener.

This is how their blood sugar levels reacted over the next 2 hours

Notice the crash at the end.

## Chocolate #9 - Certified LOW Glycemic Index

This time the same group was given an equal portion of Chocolate #9

Notice the stable curve no spiking, no crashing ...stable paced energy

## Chocolate #9 offers you a performance advantage

Re-fuel with Chocolate #9 - Certified LOW glycemic index energy gel. Perform at your highest level, avoid the fatiguing effects of repetitive glycemic spiking...

**Try Chocolate#9 Today!**
